With her gifts of Feng Shui, Nicolette performed the equivalent of spiritual open heart surgery on our lives. The house feels magically alive! I am loving my husband so much these days ... and he is getting much more loving. We feel transformed, as if we've been given a new, joyous lease on, and relationship to life!

Wow – what amazing affects you have had on our home. I've done a complete 180 from the initial resistance to being literally 2 or 3 steps away from having implemented virtually every single change you suggested! I'm LOVING my new desk position! I even have a contractor coming next week to give us a quote on installing the water fountain in the back. It's AMAZING the change in vibration in the house. We can't thank you enough!

My wife remodeled her office in the basement as you suggested, moving the desk to face the door and she is elated! I also moved my office around today with the desk facing the door and I feel the power in it all. We want to thank you profusely! You are a feng shui hurricane! I feel blessed that you helped us out!

So much came up for me during our session, it felt like a whole day cleanse! As I was walked through my house today, there were so many things I had never noticed before that I immediately changed, pitched, moved, etc. Such a great process, physically, emotionally, spiritually and mentally!

After my House Blessing and Feng Shui consultation with Nicolette, not only did I get a good night's rest (for the first time in a long time), I woke up feeling like I had just moved into a new home – and I've lived there for a year!

You did it again! Our little bear is sleeping the best night he has ever had. He woke up briefly once at 10:30 but did not get up to eat until 3:15am! I was able to sit calmly and nurse him in his room and he easily went back to sleep. I can't thank you enough, and while I am wide awake and have been since my boobs almost exploded at 3am, I have a greater energy than I've had for months!

I have approached my life with significantly more zest and enthusiasm since my Feng Shui session with Nicolette. We went through my whole house. I discovered where I was blocking the energy flow in my life and what areas needed enlivened energy flow. I've had amazing feedback regarding the energy I exude. And I had such fun making the changes that Nicolette suggested. Her knowledge is captivating, and she shares it with enthusiasm and a warm heart. She gave me an abundance of sources for all the cures (changes) that I needed. I have tried many healing arts in my life, and I found my session with Nicolette one of the most impactful. You will be amazed!
