Gather your friends for a playful introduction to the ancient wisdom of Feng Shui!

Together, we'll explore the **Feng Shui Bagua**, the energy map of your home that reveals where positive energy is flowing beautifully and where it may be stuck or depleted.

And here's the fun part! **As the host, YOUR home becomes our living classroom!** We'll explore its energy together, discovering opportunities to bring greater harmony, balance, and inspiration into your space.

Each guest is invited to bring a floor plan of their own home so they can follow along, discover their personal Bagua, and leave with practical Feng Shui tips and enhancements they can begin using right away.

Come curious! I guarantee you'll leave inspired, with a big smile for all the wisdom you learned!

For more than twenty years, I've used the ancient wisdom of Feng Shui to help people world-wide, create homes and workplaces that nurture their well being, creativity and joy.

Today, I've expanded that work to include Soul-Centered Living and Spiritual Psychology, practices that invite us to look inward, explore the beliefs and patterns that shape our lives deepen our connection to our authentic selves , and discover how we might more fully express our unique gifts in the world.

Together we'll explore the nine life energies in the home:
Wealth, Health, Fame, Career,
Relationship, Helpful People,
Children & Creativity, Knowledge

Through hands-on activities and lively conversation, guests will discover how their surroundings may be supporting—or challenging—the life they want to live.

My dynamic interactive Feng Shui Parties are complimentary as my gift to you! With the Host providing snacks and drinks.
